

Powering and Connecting Your World

## NEW PRODUCT ANNOUNCEMENT

### High-Wattage Wall Chargers

# Powerful USB-C Charging in a Travel-Friendly Size

Tripp Lite's high-wattage wall chargers are smaller than most of the wall chargers that come standard with tablets and laptops.

#### Perfect for:

Quickly charging USB-C devices in homes, schools, offices and hotels.

Tripp Lite's new high-wattage wall chargers provide more power in less space than most standard power adapters to quickly charge the latest laptops and other USB-C devices. The chargers feature highly efficient gallium nitride (GaN) technology to deliver up to 60W of power.

A small, lightweight housing and convenient folding plug make these USB-C chargers an ideal travel solution for charging the newest smartphones, tablets and laptops.

## Key Benefits

### POWERFUL CHARGING

- Models with 40W, 50W and 60W capacities accommodate power-hungry USB-C devices.
- USB Power Delivery (PD) 3.0 technology charges devices quickly.

### EFFICIENT POWER DENSITY

- GaN technology enables more power delivery in a smaller form factor.
- GaN efficiency creates less heat while charging than silicon-based chargers.

### SAFE OPERATION

- Auto-sensing USB-C port adjusts charging power according to device needs.
- Charging stops when connected device is at full capacity to prevent battery damage.
- Offers protection from overheating, overcurrent and overcharging.

### COMPACT SIZE

- Small, lightweight housing fits easily in laptop bags, pockets and purses, and takes up less space on a crowded power strip.
- Plug folds into the housing for easy transport and protection from damage.

### BROAD COMPATIBILITY

- USB-C port is compatible with charging cables from the newest USB-C smartphones, tablets and laptops.
- Plug fits NEMA 1-15R, 5-15R and 5-15/20R AC outlets for use in different environments.
- High-wattage ratings allow the chargers to work with a wide variety of devices.

## Feature Focus

### A NEMA 1-15P Plug

Plug fits NEMA 1-15R, 5-15R and 5-15/20R AC outlets for reliable convenience.

### B Travel-Friendly Design

Plug folds into the housing to make the charger more compact and easier to transport.

### C USB-C Charging Port

USB-C port accommodates the charging cable from the latest USB-C smartphones, tablets and laptops for fast Power Delivery (PD) 3.0 charging.

## Internal

### GaN Technology

Gallium nitride semiconductor provides efficient 40W-60W charging, requiring less space and generating less heat than comparable silicon-based charging technologies.

### Overcurrent Protection

Auto-sensing USB-C port adjusts charging power to a level appropriate for the connected device, protecting against overheating, overcurrent and battery damage from overcharging.
