Features

C14-to-C13 Power Cable Connects Computers, Printers, Servers and Other EquipmentThis IEC-320-C14 to IEC-320-C13 cable is designed for small data center or office workstation applications that do not require a heavy-gauge connection. This C14 male to C13 female cord can be used to power a computer, server or monitor; attach a server or drive to a UPS system or PDU; or extend an existing connection up to three feet. The three-foot length helps reduce cable clutter and minimize the risk of tripping.
